

To whom it may concern:

My name is Marcos A. Romero. I am a 32 year old married Hispanic and father of 3 teenagers. I within the past 2 years had back surgery but am currently still working a 10 hour a day job building oil drilling rigs to provide for my family. I do not know how much longer I can do this as I am at times in severe pain. Where I come from there are no other jobs that pay the kind of money that I make just to make ends meet so finding an easier job is not an option for me. Forex gives me the ability to provide for my family and puts not strain on my body. If leverage is increased I and thousands of other just like me who depend on this market to provide for their family will no longer be able to afford to trade. Please do not increase leverage. Thank you for your time.
