Introduction

As announced in Regulatory Notice [14-07](#), on January 17, 2014, the SEC approved a proposed rule change to (i) adopt FINRA Rule 4552 to require each ATS to report to FINRA weekly equity volume information and number of securities transactions within the ATS (ATS reporting requirement); and (ii) amend FINRA Rules 6160, 6170, 6480 and 6720 to require each ATS to acquire and use a single, unique MPID when reporting information to FINRA (MPID requirement). As part of these requirements, FINRA makes the reported volume and trade count information for equity securities publicly available on its website as described below.

FINRA publishes on its website the reported information in each equity security for each ATS for each week. FINRA publishes the aggregate reported information regarding NMS stocks in Tier 1 of the NMS Plan to Address Extraordinary Market Volatility on a two-week delayed basis. FINRA publishes the information on all other NMS stocks and OTC Equity Securities subject to FINRA trade reporting requirements on a four-week delayed basis.

As announced in Regulatory Notice [2015-48](#) the SEC approved a proposed rule change to amend Rules 6110 and 6610 to expand the transparency initiative by publishing Non-ATS OTC equity volume.

FINRA publishes on its website the reported information in each equity security for each Non-ATS that meets the volume threshold¹ or as an aggregated “De minimis Firms” calculation for each week or month. FINRA publishes the aggregate reported information regarding NMS stocks in Tier 1 of the NMS Plan to Address Extraordinary Market Volatility on a two-week delayed basis. FINRA publishes the information on all other NMS stocks and OTC Equity Securities subject to FINRA trade reporting requirements on a four-week delayed basis. FINRA publishes monthly OTC Non-ATS data on a one month delay publishing on the first Monday (or next business day) of the following month. Beginning on April 25, 2016 weekly reports will be published and monthly reports will begin on June 6, 2016.

¹ Trading Information for firms with “de minimis” OTC equity volume outside of an ATS, i.e., on average fewer than 200 transactions per day across all securities during the applicable Trading Information period, is aggregated and published on a non-attributed basis. In addition, Trading Information is further aggregated for member firms that have executed on average fewer than 200 transactions per day in a given security during the applicable Trading Information period. For the weekly non-ATS data, the de minimis threshold is calculated separately for Tier 1 NMS stocks, other NMS stocks and OTC Equity Securities, and for the monthly non-ATS data, the de minimis threshold is calculated separately for NMS stocks (not broken down by tier) and OTC Equity Securities.

Information regarding specific questions about OTC Transparency reporting and publication can be found in the OTC Transparency section of the FINRA Website available at: <http://www.finra.org/OTC-Transparency>.

Automation of Download

ATS Transparency File Download

The ATS Transparency file download process may be automated by firms using the following instructions.

Machine-download Instructions:

1. Go to the machine download page at:
<https://otctransparency.finra.org/TradingDetailFileArchive/TradingDetailFilesDownloadGrid>
2. Select “I Agree”
3. Once on the download page, parse through the “tblTrading” HTML table.

Note: Parsing through the ATS data tables may be a different process depending on the application or methodology used. The code developed to parse the table will be determined by each individual firm and will not be dictated or directed by FINRA.

OTC (Non-ATS) Transparency File Download

The OTC (Non-ATS) Transparency file download process may be automated by firms using the following instructions.

Machine-download Instructions:

1. Go to the machine download page at:
<https://otctransparency.finra.org/OTCTradingDetailFileArchive/OTCTradingDetailFilesDownloadGrid>
2. Select “I Agree”
3. Once on the download page, parse through the “tblTrading” HTML table.

Note: Parsing through the Non-ATS data tables may be a different process depending on the application or methodology used. The code developed to parse the table will be determined by each individual firm and will not be dictated or directed by FINRA.

File Availability

Files will be available to users via download. Weekly files and updates to previously published files will be published and available for download no earlier than 6:00 AM E.T. on business days.

Users may attempt to access the files on non-business days; however, due to server maintenance which occurs on weekends and other non-business days it is possible that the user will not have immediate success in accessing the data during these days.

Appendix A: Security Symbol Supplement and Resource Guide

This section serves as a supplemental resource for security and symbol information provided by FINRA.

Reports are published using the NASDAQ assigned listing symbol for UTP securities and the NASDAQ ACT symbol for Other Exchange Listed securities (NMS stocks). Other Exchange Listed security symbols may contain a special character such as “.” or “\$” to separate the root symbol from the suffix. OTCBB and Other-OTC securities may or may not be OATS reportable. The following provide direct links to webpages for security information.

NMS Stocks
