Re: **File No. SR-NASD- 98-51**

Microcap Initiative - Amendments to NASD Rules 6530 and 6540;
Amendment No. 1

Dear Ms. England:

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") and Rule 19b-4 thereunder and discussions with staff of the Commission's Division of Market Regulation, the National Association of Securities Dealers, Inc. ("NASD"), hereby amends its rule proposal contained in the above-captioned rule filing. The amendment clarifies certain language in the proposed rule. This amendment replaces the text of the original filing and Exhibit I.

The NASD believes that the proposed amendment is consistent with the Act for the reasons outlined in its original filing with the Commission.

If you have any questions concerning this amendment, please contact me at 728-8290 or Sara Nelson Bloom at 728-8478.

Very truly yours,

Robert E. Aber

SECURITIES AND EXCHANGE COMMISSION

Washington, D. C.

Form 19b-4

Proposed Rule Change

by

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

Pursuant to Rule 19b-4 under the
Securities Exchange Act of 1934

1. Text of Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) under the Securities Exchange Act of 1934, as amended (“Act”), The National Association of Securities Dealers, Inc. (“NASD” or “Association”), through its wholly owned subsidiaries, The Nasdaq Stock Market, Inc. (“Nasdaq”) and NASD Regulation, Inc. (collectively, “NASD”), is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposed rule change that would amend NASD Rules 6530 and 6540 to limit quotations on the OTC Bulletin Board[®] (“OTCBB”) to the securities of issuers that are current in their reports filed with the SEC or other regulatory authority, and to prohibit a member from quoting a security on the OTCBB unless the issuer has made current filings, respectively. Below is the text of the proposed rule change. New language is underlined and deletions are bracketed.

6530. OTCBB Eligible Securities

A Member shall be permitted to quote the [The] following categories of securities [shall be eligible for quotation] in the Service:

(a) any domestic equity security that satisfies the requirements of paragraph (1) and either paragraph (2) or (3) or (4) below:

(1) the security is not listed on The Nasdaq Stock Market (“Nasdaq”) or a registered national securities exchange in the U.S., except that an equity security [securities that are] shall be considered eligible if it:

(A[1]) is listed on one or more regional stock exchanges, and

(B[2]) [do] does not qualify for dissemination of transaction reports via the

facilities of the Consolidated Tape [shall be considered eligible.]; and

(2) the issuer of the security is required to file reports pursuant to Section 13 or 15(d) of the Act or the security is described in Section 12(g)(2)(B) of the Act, and, subject to a thirty calendar day grace period, the issuer of the security is current in its reporting obligations, or

(3) the security is described in Section 12(g)(2)(G) of the Act and, subject to a sixty calendar day grace period, the issuer of the security is current in its reporting obligations, or

(4) the issuer of the security is a bank or savings association that is not required to file reports with the Commission pursuant to Section 13 or 15(d) of the Act and, subject to a sixty calendar day grace period, the issuer of the security is current with all required filings with its appropriate Federal banking agency or State bank supervisor (as defined in 12 U.S.C. 1813).

(b) any foreign equity security or American Depositary Receipt (ADR) that meets all of the following criteria:

(1) [prior to April 1, 1998, is not listed on Nasdaq or a registered national securities exchange in the U.S., except that a foreign equity security or ADR shall be considered eligible if it is:

(A) listed on one or more regional stock exchanges, and

(B) does not qualify for dissemination of transaction reports via the facilities of the Consolidated Tape.

(2) after March 31, 1998,] the security is registered with the Securities and Exchange Commission pursuant to Section 12 of the [Securities Exchange]Act [of 1934] and the

issuer of the security is current in its reporting obligations; or the security satisfies the requirements of paragraph (a)(2) or (3) or (4) above; and
(2) the security is not listed on Nasdaq or a registered national securities exchange in the U.S., except that a foreign equity security or ADR shall [be considered eligible] meet this subparagraph (3) if it is:

(A) listed on one or more regional stock exchanges, and

(B) does not qualify for dissemination of transaction reports via the facilities of the Consolidated Tape.

(c) any equity security that [is] meets the following criteria:

(1) the security is undergoing delisting from either the New York Stock Exchange, Inc. (NYSE) or the American Stock Exchange, Inc. (AMEX) for non-compliance with maintenance-of-listing standards; and

(2) the security is subject to a trading suspension imposed by the NYSE or AMEX preceding the actual delisting; and

(3) the security satisfies the requirements of paragraph (a)(2) or (3) or (4) above.

(d) any Direct [District] Participation Program as defined in Rule 6910 that is not listed on Nasdaq or a registered national securities exchange in the U.S. and that satisfies the requirements of paragraph (a)(2) or (3) or (4) above.

(e) Paragraphs (a)(2) and (3) and (4) above will not apply with respect to any domestic equity security quoted in the Service on the effective date of this rule change until six months after that date.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was reviewed and approved by the Board of Directors of Nasdaq and NASDR at their respective meetings on May 6, 1998 and the Board of Governors of

the NASD at its meeting on May 7, 1998, which authorized the filing of the rule change with the SEC. No other action by the NASD is necessary for the filing of the proposed rule change.

Questions regarding this rule filing may be directed to Sara Nelson Bloom, Associate General Counsel, Office of General Counsel, The Nasdaq Stock Market, at (202) 728-8478.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The NASD has actively studied the OTC market in an effort to address the abuses in the trading and sales of thinly traded, thinly capitalized (microcap) securities. These securities are not listed on The Nasdaq Stock Market[®] (“Nasdaq”) or any exchange and trade on the OTC Bulletin Board[®] (“OTCBB”), in the “pink sheets” published by the National Quotation Bureau, Inc. (“Pink Sheets”), and in other quotation media where there are no listing requirements. With respect to its examination of the OTCBB in particular, the NASD noted the lack of reliable and current financial information about the issuers, and the perception by the public that the OTCBB is similar to a highly regulated market, such as the registered exchanges or Nasdaq.¹

The OTCBB Service provides a real-time quotation medium that NASD member firms can use to enter, update, and retrieve quotation information (including unpriced indications of interest) for equity securities traded over-the-counter that are neither listed on The Nasdaq Stock Market nor on a primary national securities exchange. Eligible securities include national, regional, and foreign equity issues, warrants, units, Direct Participation Programs, and American Depositary Receipts (ADRs) not listed on any other U.S. national securities market or exchange.

Unlike Nasdaq or registered exchanges where individual companies apply for listing on the market—and must meet and maintain strict listing standards—there are no listing standards for the OTCBB, and there currently is no requirement that issuers of securities on the OTCBB make current, publicly-available reports with the SEC or other regulator. In fact, over half of the companies that are currently quoted on the OTCBB are not subject to any public reporting requirements.

The proposed rule change was developed in an effort to balance the benefits that the transparency of the OTCBB provides with the public need for information about the issuers being quoted. The NASD is concerned that where there is no public information available regarding a security, the broad-based automated display of quotations in that security creates an unjustified perception of reliability. While the NASD realizes that the new rule may result in the lack of real-time quotations for those securities that become ineligible for the OTCBB, it believes that this loss is outweighed by the benefit to investors who would, under the proposed rule, have access to information about the companies in which they may invest. In addition, transactions in securities ineligible for the OTCBB would still be subject to real-time last sale trade reporting. These reports are publicly disseminated through market data vendors on a real-time basis.

Amendment to Rule 6530

This proposed amendment to Rule 6530 would limit quotations on the OTCBB to the securities of issuers that make current filings pursuant to Sections 13 and 15(d) of the Act, securities of depository institutions that are not required to make filings under the Act, but file

¹ In addition, the NASD has determined through its subsidiary, NASD Regulation, to require a member to review current financial statements and other business information about the issuer of a security that is not listed on Nasdaq or a national securities exchange before that member could recommend a transaction to a customer in the security and to provide certain disclosure information on the trade confirmation for all customer transactions (solicited and unsolicited) in such securities. See SR-NASD-98-50.

publicly-available reports with their appropriate regulatory agencies, registered closed-end investment companies, and insurance companies that are exempt from registration under Section 12(g)(2)(G) of the Act.

To remain eligible for quotation on the OTCBB, an issuer must remain current in its filings with the SEC or applicable regulatory authority. A member would be required to inform the NASD of the issuer's reporting schedule. Based upon that schedule, the NASD will affix a modifier on the security's symbol if the NASD has not received information that the report was timely filed.² The addition of the modifier to the symbol, as well as any changes to the symbol necessary to accommodate the modifier, will be publicly reported on the OTCBB Daily List, which is available to market makers and investors through the OTCBB web site at <http://www.otcbb.com>. Once an issuer is delinquent in filing a required report (e.g., Form 10-K, Form 10-Q, Form 20-F, Insurance Company Annual Statement, or call report), a security of the issuer may continue to be quoted on the OTCBB for a 30 or 60 calendar day grace period from the due date of the report, depending on the type of issuer. After the grace period, quotations in the security of the delinquent issuer would not be permitted on the OTCBB.

Filings for most OTCBB issuers are available through the SEC's Electronic Data Gathering, Analysis, and Retrieval (EDGAR) system.³ Foreign issuers are generally permitted to file in paper format and copies of these filings are available from the Commission. Exchange Act filings of banks and thrifts are available upon filing from the financial institution's primary bank regulatory agency. The grace period for these issuers is 30 days. In the case of banks and thrifts that are not required to make Exchange Act filings, members can obtain call report

² It is contemplated that the modifier will be affixed one to two days after the report is due.

³ EDGAR is the SEC system for the receipt, acceptance, and review of documents submitted in electronic format.

information from the National Information Center of Banking Information website (<http://www.ffiec.gov/nic>) or the Federal Deposit Insurance Corporation's website (<http://www.fdic.gov>). Call reports are filed 30 days after the end of each calendar quarter and are available to the public within 15 days of filing. Insurance companies file annual statements with the National Association of Insurance Commissioners (NAIC) by March 1st of each year. This information is released to the public by NAIC by April 1st. Because of the delay in the availability of call reports and insurance company annual statements, the proposed rule permits a 60 calendar day grace period for the quotation of securities of these companies after the deadline for the issuer to submit a report to the appropriate regulator.

Amendment to Rule 6540

This proposed amendment to Rule 6540 would prohibit member firms from quoting an issuer's security if the issuer has not made current reports with the SEC or the appropriate regulatory authority. Members must also provide such reports to the NASD, although the reports may be provided by any market maker in the security. The NASD is exploring ways to reduce the burden of this requirement for members, particularly with respect to issuers who are EDGAR filers. As discussed above, the NASD will affix a modifier to the security's symbol if the NASD has not received information that the report was timely filed. This indication will provide members with notice that the NASD has not received information that the issuer's report was timely filed. Once the NASD provides this notice, the member will have the opportunity to acquire the necessary report and provide it to the NASD before the end of the grace period.

Phase-In

The new requirements will be immediately effective upon approval of the rule for securities not previously quoted on the OTCBB. Securities quoted on the OTCBB on the date

the rule becomes effective will be afforded at least six months to comply with the new requirements. Specifically, and in order to accommodate the resource demands that may be placed upon the SEC when certain issuers elect to file current public reports, the new requirements will be applied in a month-by-month staggered manner for a period from six to eighteen months from the date the rule is approved. The NASD will apply the new rule to approximately the same number of issuers for each month during that period in order to evenly distribute the SEC's anticipated work load. The delayed effectiveness of the rule should also enable market makers, investors, and issuers to take appropriate action. It should be noted that for issuers who file a Form 10 or Form 10SB with the SEC to register under Section 12(g) of the Exchange Act, all SEC comments, if any, must be cleared with the SEC before securities can quote on the OTCBB.

(b) Statutory Basis

The NASD believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act, which requires, among other things, that the Association's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. In addition, Section 15A(b)(11) of the Act requires that the rules of a registered national securities association be designed to produce fair and informative quotations, prevent fictitious or misleading quotations and to promote orderly procedures for collecting, distributing, and publishing quotations. The NASD believes the proposed rule change, which will address actual and potential fraud in the quotation and trading of non-listed securities and the investor perception that the OTCBB is equivalent to Nasdaq or exchange markets in terms of standards, regulatory structure and oversight, will accordingly protect investors and the public interest.

Further, limiting the OTCBB to companies that provide public information will prevent fictitious and misleading quotations.

4. Self-Regulatory Organization's Statement on Burden on Competition

The NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The proposed rule changes were published for comment in NASD Notice to Members 98-14 ("Notice" or "NTM") in January, 1998. A total of 44 comments were received in response to the Notice. A copy of the Notice is attached as Exhibit 2. Copies of the comment letters received in response to the Notice are attached as Exhibit 3.

Of the 44 responses received, 18 responses (or 41%) were from broker/dealer firms or registered persons and the balance of 26 comments (or 59%) were from individual investors, issuers, various state agencies, trade associations, and other interested parties. In providing comments, a majority of commenters expressed a position (i.e., approval or disapproval) regarding each specific proposal. Other commenters did not provide a stated position on each proposal, but identified particular issues with certain proposals and provided written comment.

Twenty-two commenters opposed the proposal, 19 commenters supported it, and three did not take a definitive position. Those commenters who disapproved of the proposed changes generally believed that the changes would decrease transparency and liquidity and would increase the regulatory burden that small issuers face. One commenter opined that the annual cost to an issuer to comply with the Exchange Act reporting requirements would be \$150,000.

Those commenters supporting the proposed changes generally felt the changes will help eliminate fraud by providing investors with reliable information. These commenters thought the deterrence of fraud and increased availability of information outweighed the increased burden on companies.

Commenters indicated that the rule as proposed in the Notice should be modified to recognize issuers filing under Section 15(d) of the Exchange Act. A commenter encouraged the NASD to accept reports filed with regulatory agencies outside of the Exchange Act, such as call reports filed by financial institutions. The rule as published in the Notice would have permitted members to maintain quotes in a security in which an issuer is delinquent in its reports with the SEC or regulatory authorities for a period of ten days. Other commenters supported an expansion of the grace period for filing a report with the SEC to 30 days after its due date.

After the public comment process, the staff recommended and the Boards approved the following modifications to the proposed rules. As to Rule 6530, the proposed delinquency grace period was expanded from ten days to thirty days for issuers filing Exchange Act forms and to sixty days for insurance companies and financial institutions that do not file Exchange Act forms. This extended grace period is consistent with the proposed review period in the SEC's Rule 15c2-11 proposal.⁴ Further, in the original Notice, the staff solicited comment on whether certain non-Exchange Act depository institutions that provide publicly-available financial reports to banking regulators should be eligible for quotation on the OTCBB. Based on the comments received, the nature of the issuers, the independent oversight of banking regulators, and the SEC's position that reports filed with federal or state bank supervisory agencies contain

⁴ Release 34-39670, 63 Fed. Reg. 9661 (Feb. 25, 1998).

information analogous to Exchange Act reports,⁵ the proposed rule allows securities of these issuers to be quoted on the OTCBB if the issuer provides timely reports to the appropriate Federal banking agency or State bank supervisor and the information is publicly available. Finally, consistent with comments received, the proposed rule includes securities of issuers who are currently filing reports with the SEC pursuant to Section 15(d) of the Act as eligible securities for the OTCBB. An issuer becomes subject to Section 15(d) as a result of registering securities under the Securities Act of 1933 and is thereby required to make timely filings with the SEC such as Forms 10-K, 10-Q, and 8-K or 20-F for at least a year following the Securities Act registration.⁶

The staff and Boards considered commenters' objection that the proposed rule would decrease transparency for securities no longer eligible for the OTCBB. However, this objection was outweighed by the benefit of ensuring that there was publicly-available information regarding issuers that are afforded the visibility and credibility of the OTCBB. In this regard, the NASD considered that in granting permanent approval to the OTCBB, the SEC noted:

As a general matter, transparency benefits the markets. However, in the context of the inclusion of unregistered foreign securities on the OTCBB, the benefits may be outweighed by the potential from including unregistered securities on a visible U.S. market operated by a self-regulatory organization.⁷

The SEC also noted that "the OTCBB may be inconsistent with the full disclosure goals of the securities laws in allowing a regulated public marketplace for unregistered securities."⁸

⁵ Id. at 9667-68.

⁶ In addition to its requirements under Section 15(d), an issuer may voluntarily register under 12(g) or be required to register under 12(g) if it has 500 or more shareholders of record and total assets of more than \$10 million. Under both scenarios, the issuer's securities would continue to qualify as eligible securities for purposes of the OTCBB Rules if the issuer maintains current filings with the SEC.

⁷ Release No. 34-38456 (March 31, 1997), 62 Fed. Reg. 16635 at 16638 (April 7, 1997).

⁸ Id.

While these comments were made in the context of unregistered foreign securities, the NASD believes that the same concerns exist with respect to domestic securities for which no public information is available.

6. Extension of Time Period for Commission Action

The NASD does not consent at this time to an extension of the time period for Commission action specified in Section 19(b)(2) of the Act.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Not applicable.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

Not applicable.

9. Exhibits

1. Completed notice of proposed rule change for publication in the Federal Register.
2. NASD Notice to Members 98-14, January, 1998.
3. Comments received in response to NASD Notices to Members 98-14 (including listing of comments)

Pursuant to the requirements of the Securities Exchange Act of 1934, The NASD has duly caused this filing to be signed on its behalf by the undersigned thereunto duly authorized.

II. SELF-REGULATORY ORGANIZATION'S STATEMENT OF THE PURPOSE OF, AND STATUTORY BASIS FOR, THE PROPOSED RULE CHANGE

In its filing with the Commission, The NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The NASD has actively studied the OTC market in an effort to address the abuses in the trading and sales of thinly traded, thinly capitalized (microcap) securities. These securities are not listed on The Nasdaq Stock Market[®] ("Nasdaq") or any exchange and trade on the OTC Bulletin Board[®] ("OTCBB"), in the "pink sheets" published by the National Quotation Bureau, Inc. ("Pink Sheets"), and in other quotation media where there are no listing requirements. With respect to its examination of the OTCBB in particular, the NASD noted the lack of reliable and

current financial information about the issuers, and the perception by the public that the OTCBB is similar to a highly regulated market, such as the registered exchanges or Nasdaq.¹

The OTCBB Service provides a real-time quotation medium that NASD member firms can use to enter, update, and retrieve quotation information (including unpriced indications of interest) for equity securities traded over-the-counter that are neither listed on The Nasdaq Stock Market nor on a primary national securities exchange. Eligible securities include national, regional, and foreign equity issues, warrants, units, Direct Participation Programs, and American Depositary Receipts (ADRs) not listed on any other U.S. national securities market or exchange. Unlike Nasdaq or registered exchanges where individual companies apply for listing on the market—and must meet and maintain strict listing standards—there are no listing standards for the OTCBB, and there currently is no requirement that issuers of securities on the OTCBB make current, publicly-available reports with the SEC or other regulator. In fact, over half of the companies that are currently quoted on the OTCBB are not subject to any public reporting requirements.

The proposed rule change was developed in an effort to balance the benefits that the transparency of the OTCBB provides with the public need for information about the issuers being quoted. The NASD is concerned that where there is no public information available regarding a security, the broad-based automated display of quotations in that security creates an unjustified perception of reliability. While the NASD realizes that the new rule may result in the lack of real-time quotations for those securities that become ineligible for the OTCBB, it believes that

¹ In addition, the NASD has determined through its subsidiary, NASD Regulation, to require a member to review current financial statements and other business information about the issuer of a security that is not listed on Nasdaq or a national securities exchange before that member could recommend a transaction to a customer in the security and to provide certain disclosure information on the trade confirmation for all customer transactions (solicited and unsolicited) in such securities. See SR-NASD-98-50.

this loss is outweighed by the benefit to investors who would, under the proposed rule, have access to information about the companies in which they may invest. In addition, transactions in securities ineligible for the OTCBB would still be subject to real-time last sale trade reporting. These reports are publicly disseminated through market data vendors on a real-time basis.

Amendment to Rule 6530

This proposed amendment to Rule 6530 would limit quotations on the OTCBB to the securities of issuers that make current filings pursuant to Sections 13 and 15(d) of the Act, securities of depository institutions that are not required to make filings under the Act, but file publicly-available reports with their appropriate regulatory agencies, registered closed-end investment companies, and insurance companies that are exempt from registration under Section 12(g)(2)(G) of the Act.

To remain eligible for quotation on the OTCBB, an issuer must remain current in its filings with the SEC or applicable regulatory authority. A member would be required to inform the NASD of the issuer's reporting schedule. Based upon that schedule, the NASD will affix a modifier on the security's symbol if the NASD has not received information that the report was timely filed.² The addition of the modifier to the symbol, as well as any changes to the symbol necessary to accommodate the modifier, will be publicly reported on the OTCBB Daily List, which is available to market makers and investors through the OTCBB web site at <http://www.otcbb.com>. Once an issuer is delinquent in filing a required report (e.g., Form 10-K, Form 10-Q, Form 20-F, Insurance Company Annual Statement, or call report), a security of the issuer may continue to be quoted on the OTCBB for a 30 or 60 calendar day grace period from

² It is contemplated that the modifier will be affixed one to two days after the report is due.

the due date of the report, depending on the type of issuer. After the grace period, quotations in the security of the delinquent issuer would not be permitted on the OTCBB.

Filings for most OTCBB issuers are available through the SEC's Electronic Data Gathering, Analysis, and Retrieval (EDGAR) system.³ Foreign issuers are generally permitted to file in paper format and copies of these filings are available from the Commission. Exchange Act filings of banks and thrifts are available upon filing from the financial institution's primary bank regulatory agency. The grace period for these issuers is 30 days. In the case of banks and thrifts that are not required to make Exchange Act filings, members can obtain call report information from the National Information Center of Banking Information website (<http://www.ffiec.gov/nic>) or the Federal Deposit Insurance Corporation's website (<http://www.fdic.gov>). Call reports are filed 30 days after the end of each calendar quarter and are available to the public within 15 days of filing. Insurance companies file annual statements with the National Association of Insurance Commissioners (NAIC) by March 1st of each year. This information is released to the public by NAIC by April 1st. Because of the delay in the availability of call reports and insurance company annual statements, the proposed rule permits a 60 calendar day grace period for the quotation of securities of these companies after the deadline for the issuer to submit a report to the appropriate regulator.

Amendment to Rule 6540

This proposed amendment to Rule 6540 would prohibit member firms from quoting an issuer's security if the issuer has not made current reports with the SEC or the appropriate regulatory authority. Members must also provide such reports to the NASD, although the reports may be provided by any market maker in the security. The NASD is exploring ways to reduce

³ EDGAR is the SEC system for the receipt, acceptance, and review of documents submitted in electronic format.

the burden of this requirement for members, particularly with respect to issuers who are EDGAR filers. As discussed above, the NASD will affix a modifier to the security's symbol if the NASD has not received information that the report was timely filed. This indication will provide members with notice that the NASD has not received information that the issuer's report was timely filed. Once the NASD provides this notice, the member will have the opportunity to acquire the necessary report and provide it to the NASD before the end of the grace period.

Phase-In

The new requirements will be immediately effective upon approval of the rule for securities not previously quoted on the OTCBB. Securities quoted on the OTCBB on the date the rule becomes effective will be afforded at least six months to comply with the new requirements. Specifically, and in order to accommodate the resource demands that may be placed upon the SEC when certain issuers elect to file current public reports, the new requirements will be applied in a month-by-month staggered manner for a period from six to eighteen months from the date the rule is approved. The NASD will apply the new rule to approximately the same number of issuers for each month during that period in order to evenly distribute the SEC's anticipated work load. The delayed effectiveness of the rule should also enable market makers, investors, and issuers to take appropriate action. It should be noted that for issuers who file a Form 10 or Form 10SB with the SEC to register under Section 12(g) of the Exchange Act, all SEC comments, if any, must be cleared with the SEC before securities can quote on the OTCBB.

(b) Statutory Basis

The NASD believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act, which requires, among other things, that the Association's rules

must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. In addition, Section 15A(b)(11) of the Act requires that the rules of a registered national securities association be designed to produce fair and informative quotations, prevent fictitious or misleading quotations and to promote orderly procedures for collecting, distributing, and publishing quotations. The NASD believes the proposed rule change, which will address actual and potential fraud in the quotation and trading of non-listed securities and the investor perception that the OTCBB is equivalent to Nasdaq or exchange markets in terms of standards, regulatory structure and oversight, will accordingly protect investors and the public interest. Further, limiting the OTCBB to companies that provide public information will prevent fictitious and misleading quotations.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The proposed rule changes were published for comment in NASD Notice to Members 98-14 ("Notice" or "NTM") in January, 1998. A total of 44 comments were received in response to the Notice. A copy of the Notice is attached as Exhibit 2. Copies of the comment letters received in response to the Notice are attached as Exhibit 3.

Of the 44 responses received, 18 responses (or 41%) were from broker/dealer firms or registered persons and the balance of 26 comments (or 59%) were from individual investors, issuers, various state agencies, trade associations, and other interested parties. In providing

comments, a majority of commenters expressed a position (i.e., approval or disapproval) regarding each specific proposal. Other commenters did not provide a stated position on each proposal, but identified particular issues with certain proposals and provided written comment.

Twenty-two commenters opposed the proposal, 19 commenters supported it, and three did not take a definitive position. Those commenters who disapproved of the proposed changes generally believed that the changes would decrease transparency and liquidity and would increase the regulatory burden that small issuers face. One commenter opined that the annual cost to an issuer to comply with the Exchange Act reporting requirements would be \$150,000.

Those commenters supporting the proposed changes generally felt the changes will help eliminate fraud by providing investors with reliable information. These commenters thought the deterrence of fraud and increased availability of information outweighed the increased burden on companies.

Commenters indicated that the rule as proposed in the Notice should be modified to recognize issuers filing under Section 15(d) of the Exchange Act. A commenter encouraged the NASD to accept reports filed with regulatory agencies outside of the Exchange Act, such as call reports filed by financial institutions. The rule as published in the Notice would have permitted members to maintain quotes in a security in which an issuer is delinquent in its reports with the SEC or regulatory authorities for a period of ten days. Other commenters supported an expansion of the grace period for filing a report with the SEC to 30 days after its due date.

After the public comment process, the staff recommended and the Boards approved the following modifications to the proposed rules. As to Rule 6530, the proposed delinquency grace period was expanded from ten days to thirty days for issuers filing Exchange Act forms and to

sixty days for insurance companies and financial institutions that do not file Exchange Act forms. This extended grace period is consistent with the proposed review period in the SEC's Rule 15c2-11 proposal.⁴ Further, in the original Notice, the staff solicited comment on whether certain non-Exchange Act depository institutions that provide publicly-available financial reports to banking regulators should be eligible for quotation on the OTCBB. Based on the comments received, the nature of the issuers, the independent oversight of banking regulators, and the SEC's position that reports filed with federal or state bank supervisory agencies contain information analogous to Exchange Act reports,⁵ the proposed rule allows securities of these issuers to be quoted on the OTCBB if the issuer provides timely reports to the appropriate Federal banking agency or State bank supervisor and the information is publicly available. Finally, consistent with comments received, the proposed rule includes securities of issuers who are currently filing reports with the SEC pursuant to Section 15(d) of the Act as eligible securities for the OTCBB. An issuer becomes subject to Section 15(d) as a result of registering securities under the Securities Act of 1933 and is thereby required to make timely filings with the SEC such as Forms 10-K, 10-Q, and 8-K or 20-F for at least a year following the Securities Act registration.⁶

The staff and Boards considered commenters' objection that the proposed rule would decrease transparency for securities no longer eligible for the OTCBB. However, this objection was outweighed by the benefit of ensuring that there was publicly-available information

⁶ In addition to its requirements under Section 15(d), an issuer may voluntarily register under 12(g) or be required to register under 12(g) if it has 500 or more shareholders of record and total assets of more than \$10 million. Under both scenarios, the issuer's securities would continue to qualify as eligible securities for purposes of the OTCBB Rules if the issuer maintains current filings with the SEC.

regarding issuers that are afforded the visibility and credibility of the OTCBB. In this regard, the NASD considered that in granting permanent approval to the OTCBB, the SEC noted:

As a general matter, transparency benefits the markets. However, in the context of the inclusion of unregistered foreign securities on the OTCBB, the benefits may be outweighed by the potential from including unregistered securities on a visible U.S. market operated by a self-regulatory organization.⁷

The SEC also noted that “the OTCBB may be inconsistent with the full disclosure goals of the securities laws in allowing a regulated public marketplace for unregistered securities.”⁸ While these comments were made in the context of unregistered foreign securities, the NASD believes that the same concerns exist with respect to domestic securities for which no public information is available.

III. DATE OF EFFECTIVENESS OF THE PROPOSED RULE CHANGE AND TIMING FOR COMMISSION ACTION

Within 35 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- A. by order approve such proposed rule change, or
- B. institute proceedings to determine whether the proposed rule change should be disapproved.

IV. SOLICITATION OF COMMENTS

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary,
