1. Text of Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”), the National Association of Securities Dealers, Inc. (“NASD”) is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposed rule change to extend through December 31, 2005, the current pilot price-improvement standards for decimalized securities contained in NASD Interpretive Material 2110-2 - Trading Ahead of Customer Limit Order (“Manning Interpretation” or “Manning”). There are no proposed changes to rule text.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was reviewed by the Board of Governors of NASD at its meeting on January 27, 2000, which authorized the filing of the rule change with the SEC. No other action by NASD is necessary for the filing of the proposed rule change. Section 1(a)(iii) of Article VII of the NASD By-Laws permit the NASD Board of Governors to adopt amendments to NASD Rules without recourse to the membership for approval. The proposed rule change will be operative July 1, 2005.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

NASD's Manning Interpretation requires NASD member firms to provide a minimum level of price improvement to incoming orders in NMS and SmallCap securities if the firm chooses to trade as principal with those incoming orders at prices superior to customer limit orders they currently hold. If a firm fails to provide the

minimum level of price improvement to the incoming order, the firm must execute its held customer limit orders. Generally, if a firm fails to provide the requisite amount of price improvement and also fails to execute its held customer limit orders, it is in violation of the Manning Interpretation.

On April 6, 2001,¹ the Commission approved, on a pilot basis, price-improvement standards for decimalized securities contained in Manning, which added the following language to IM-2110-2:

For Nasdaq securities authorized for trading in decimals pursuant to the Decimals Implementation Plan For the Equities and Options Markets, the minimum amount of price improvement necessary in order for a market maker to execute an incoming order on a proprietary basis in a security trading in decimals when holding an unexecuted limit order in that same security, and not be required to execute the held limit order, is as follows:

- 1) For customer limit orders priced at or inside the best inside market displayed in Nasdaq, the minimum amount of price improvement required is \$0.01; and
- 2) For customer limit orders priced outside the best inside market displayed in Nasdaq, the market maker must price improve the incoming order by executing the incoming order at a price at least equal to the next superior minimum quotation increment in Nasdaq (currently \$0.01).²

¹ See SEC Release No. 34-44165 (April 6, 2001); 66 FR 19268 (April 13, 2001).

² Pursuant to the terms of the Decimals Implementation Plan for the Equities and Options Markets, the minimum quotation increment for Nasdaq securities (both National Market and SmallCap) at the outset of decimal pricing is \$0.01. As such, Nasdaq displays priced quotations to two places beyond the decimal point (to the penny). Quotations submitted to Nasdaq that do not meet this standard are rounded to the nearest minimum quotation increment (namely, \$0.01), specifically, rounded down for buy orders and rounded up for sell orders. See

Since approval, these standards continue to operate on a pilot basis which terminates on June 30, 2005.³ After consultation with SEC staff, NASD has determined to seek an extension of its current Manning pilot until December 31, 2005. NASD believes that such an extension provides for an appropriate continuation of the current Manning price-improvement standard while the Commission continues to analyze the issues related to customer limit order protection in a decimalized environment. NASD is not proposing any other changes to the pilot at this time. NASD proposes to make the proposed rule change operative on July 1, 2005.

(b) Statutory Basis

NASD believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act, which requires, among other things, that NASD rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. NASD believes that the proposed rule change will improve treatment of customer limit orders and enhance the integrity of the market.

4. Self-Regulatory Organization's Statement on Burden on Competition

NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

NASD proposes to make the proposed rule change is effective upon filing pursuant to Section 19(b)(3) of the Act and paragraph (f)(6) of Rule 19b-4 thereunder, in that the proposed rule change does not significantly affect the protection of investors or the public interest; does not impose any significant burden on competition; and does not become operative for 30 days after filing (subject to waiver by the Commission). In accordance with Rule 19b-4, NASD submitted written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing. In addition, NASD requests that the Commission waive the requirement that the rule change not become operative for 30 days after the date of the filing, as set forth in Rule 19b-4(f)(6)(iii), to prevent a lapse in the current pilot. If such waiver is granted by the Commission, the proposed rule change is effective upon filing pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6) thereunder and will become operative on July 1, 2005.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASD has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASD’s Manning Interpretation requires NASD member firms to provide a minimum level of price improvement to incoming orders in NMS and SmallCap securities if the firm chooses to trade as principal with those incoming orders at prices superior to customer limit orders they currently hold. If a firm fails to provide the minimum level of price improvement to the incoming order, the firm must execute its held customer limit orders. Generally, if a firm fails to provide the requisite amount of price improvement and also fails to execute its held customer limit orders, it is in violation of the Manning Interpretation. On April 6, 2001,⁴ the Commission approved, on a pilot basis, price-improvement standards for decimalized securities contained in Manning, which added the following language to IM-2110-2:

⁴ See SEC Release No. 34-44165 (April 6, 2001); 66 FR 19268 (April 13, 2001).

For Nasdaq securities authorized for trading in decimals pursuant to the Decimals Implementation Plan For the Equities and Options Markets, the minimum amount of price improvement necessary in order for a market maker to execute an incoming order on a proprietary basis in a security trading in decimals when holding an unexecuted limit order in that same security, and not be required to execute the held limit order, is as follows:

- 2) For customer limit orders priced outside the best inside market displayed in Nasdaq, the market maker must price improve the incoming order by executing the incoming order at a price at least equal to the next superior minimum quotation increment in Nasdaq (currently \$0.01).⁵

Since approval, these standards continue to operate on a pilot basis which terminates on June 30, 2005.⁶ After consultation with SEC staff, NASD has determined to seek an extension of its current Manning pilot until December 31, 2005. NASD believes that such an extension provides for an appropriate continuation of the current Manning price-improvement standard while the Commission continues to analyze the issues related to customer limit order protection in a decimalized environment. NASD is

not proposing any other changes to the pilot at this time. NASD proposes to make the proposed rule change operative on July 1, 2005.

NASD believes that the proposed rule change will improve treatment of customer limit orders and enhance the integrity of the market.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6) thereunder.
