2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of Nasdaq pursuant to authority delegated by the Board of Directors of Nasdaq on October 18, 2006 and the Board of Governors of NASD on November 10, 2006. The staff of Nasdaq provided an opportunity for the staff of NASD Regulation, Inc. to consult with respect to the proposed rule change, pursuant to the Plan of Allocation and Delegation of Functions

by NASD to Subsidiaries as in effect at the time of action by the Board of Directors of Nasdaq and the Board of Governors of NASD. The staff will advise the Board of Directors of Nasdaq and the Board of Governors of NASD of any action taken pursuant to delegated authority. No other action by the NASD is necessary for the filing of the rule change. Section 1(a)(ii) of Article VII of the NASD By-Laws permits the NASD Board of Governors to adopt amendments to NASD Rules without recourse to the membership for approval.

NASD has filed the proposed rule change for immediate effectiveness. The operative date of the proposed rule change will be February 1, 2007.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

This proposed rule change modifies the pricing schedule for the systems for trading non-Nasdaq exchange-listed securities that are currently operated as NASD facilities by Nasdaq. The fees apply to the ITS/CAES System and the Inet system, but as is currently the case with respect to fees for these systems, the fee schedule reflects the volume of a member's use of ITS/CAES, Inet, and the Nasdaq Market Center (a facility of The NASDAQ Stock Market LLC (the "Nasdaq Exchange")) in determining applicable fees.² The changes made by this proposed rule change relate to order

² The consideration of volumes through the Nasdaq Exchange is a function of the phased transition of Nasdaq from an operator of NASD facilities to a separate national securities exchange. As such, NASD fee schedules will be amended to remove all references to Nasdaq shortly after the time when the Nasdaq Exchange begins to trade non-Nasdaq exchange-listed securities, which is currently expected to occur on February 12, 2007. The Nasdaq Exchange is submitting a comparable filing to establish the same fees for Nasdaq-listed securities, which likewise considers trading volumes through ITS/CAES and Inet.

execution fees for the ITS/CAES and Inet, fees for routing to venues other than the New York Stock Exchange (the “NYSE”), and fees for routing orders in exchange-traded funds to the NYSE; fees to route other orders to the NYSE are unchanged.

Currently, members with an average daily volume in all securities during the month of (i) more than 30 million shares of liquidity provided, and (ii) more than 50 million shares of liquidity accessed and/or routed; or members with an average daily volume in all securities during the month of (i) more than 20 million shares of liquidity provided, and (ii) more than 60 million shares of liquidity accessed and/or routed, pay a fee of \$0.0027 per share executed when their orders access liquidity in ITS/CAES or Inet or are routed. Members with lower volumes pay a fee of \$0.0028 or \$0.003, depending on their volumes. The proposed rule change raises the volume thresholds needed to qualify for the \$0.0027 fee, such that it will be available to market participants that (i) add more than 35 million shares of liquidity per day during the month and route or remove more than 55 million shares of liquidity per day during the month, or (ii) add more than 25 million shares of liquidity per day during the month and route or remove more than 65 million share of liquidity per day during the month.

Currently, members adding more than 30 million shares of liquidity per day during the month receive a liquidity provider credit of \$0.0025 per share executed;

When the Nasdaq Exchange begins to trade non-Nasdaq securities, Inet will no longer be operated as an NASD facility for trading non-Nasdaq securities. Accordingly, for the month of February, the volumes used to determine fees for ITS/CAES and Inet will also consider volumes in non-Nasdaq securities through the Nasdaq Market Center. For this reason, a reference to “Nasdaq-listed securities” is being deleted from the explanatory text of Rule 7010(i)(1). This change is necessary to ensure that members using Inet and ITS/CAES prior to the anticipated transition on February 12, 2007 pay fees for that period that reflect a full month’s worth of their trading activity.

members providing less liquidity receive a credit of \$0.002. The proposed rule change raises the threshold needed to qualify for the \$0.0025 rebate to 35 million shares per day. However, the proposed rule change also introduces an intermediate credit of \$0.0022 per share executed for members that provide more than 20 million shares of liquidity during the month.

The fees reflected in this proposed rule change were announced by Nasdaq on November 30, 2006,³ as part of a market-wide evolution in the pricing structure for non-Nasdaq listed securities and an effort by Nasdaq to adopt consist pricing for all types of securities. Previously, the fees charged by Nasdaq and other venues for non-Nasdaq securities had been characterized by low execution and routing fees and no credits for liquidity providers. During the Fall of 2006, however, other markets began to adopt higher execution fees, coupled with liquidity provider credits, thereby moving toward a structure that had long been in effect for Nasdaq-listed securities. As of January 2, 2007, NASD likewise filed fees for the ITS/CAES and Inet that reflected this evolving pricing structure. However, the fees filed for January were intended as a one-month transition away from the previous structure, and therefore included lower thresholds to qualify for favorable pricing. In addition, the new higher thresholds adopted by this proposed rule change reflect the growing volumes of orders for NYSE-listed securities that are executed or routed through the Inet and ITS/CAES, and are intended to encourage further usage.

As noted in Item 2 of this filing, NASD has filed the proposed rule change for immediate effectiveness. The operative date of the proposed rule change will be

(b) Statutory Basis

NASD believes that the proposed rule change is consistent with the provisions of Section 15A of the Act,⁴ in general, and with Section 15A(b)(5) of the Act,⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the NASD operates or controls. NASD believes that the fees are reasonably allocated among members based on their usage of the trading systems operated by Nasdaq, and are generally consistent with fees charged by other market centers for comparable services.

4. Self-Regulatory Organization's Statement on Burden on Competition

NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASD has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

This proposed rule change modifies the pricing schedule for the systems for trading non-Nasdaq exchange-listed securities that are currently operated as NASD facilities by Nasdaq. The fees apply to the ITS/CAES System and the Inet system, but as is currently the case with respect to fees for these systems, the fee schedule reflects the

volume of a member's use of ITS/CAES, Inet, and the Nasdaq Market Center (a facility of The NASDAQ Stock Market LLC (the "Nasdaq Exchange")) in determining applicable fees.⁵ The changes made by this proposed rule change relate to order execution fees for ITS/CAES and Inet, fees for routing to venues other than the New York Stock Exchange (the "NYSE"), and fees for routing orders in exchange-traded funds to the NYSE; fees to route other orders to the NYSE are unchanged.

Currently, members with an average daily volume in all securities during the month of (i) more than 30 million shares of liquidity provided, and (ii) more than 50 million shares of liquidity accessed and/or routed; or members with an average daily volume through the Nasdaq Facilities in all securities during the month of (i) more than 20 million shares of liquidity provided, and (ii) more than 60 million shares of liquidity accessed and/or routed, pay a fee of \$0.0027 per share executed when their orders access liquidity on ITS/CAES or Inet or are routed. Members with lower volumes pay a fee of \$0.0028 or \$0.003, depending on their volumes. The proposed rule change raises the

⁵ The consideration of volumes through the Nasdaq Exchange is a function of the phased transition of Nasdaq from an operator of NASD facilities to a separate national securities exchange. As such, NASD fee schedules will be amended to remove all references to Nasdaq shortly after the time when the Nasdaq Exchange begins to trade non-Nasdaq exchange-listed securities, which is currently expected to occur on February 12, 2007. The Nasdaq Exchange is submitting a comparable filing to establish the same fees for Nasdaq-listed securities, which likewise considers trading volumes through ITS/CAES and Inet.

When the Nasdaq Exchange begins to trade non-Nasdaq securities, Inet will no longer be operated as an NASD facility for trading non-Nasdaq securities. Accordingly, for the month of February, the volumes used to determine fees for ITS/CAES and Inet will also consider volumes in non-Nasdaq securities through the Nasdaq Market Center. For this reason, a reference to "Nasdaq-listed securities" is being deleted from the explanatory text of Rule 7010(i)(1). This change is necessary to ensure that members using Inet and ITS/CAES prior to the anticipated transition on February 12, 2007 pay fees for that period that reflect a full month's worth of their trading activity.

volume thresholds needed to qualify for the \$0.0027 fee, such that it will be available to market participants that (i) add more than 35 million shares of liquidity per day during the month and route or remove more than 55 million shares of liquidity per day during the month, or (ii) add more than 25 million shares of liquidity per day during the month and route or remove more than 65 million share of liquidity per day during the month.

Currently, members adding more than 30 million shares of liquidity per day during the month receive a liquidity provider credit of \$0.0025 per share executed; members providing less liquidity receive a credit of \$0.002. The proposed rule change raises the threshold needed to qualify for the \$0.0025 rebate to 35 million shares per day. However, the proposed rule change also introduces an intermediate credit of \$0.0022 per share executed for members that provide more than 20 million shares of liquidity during the month.

The fees reflected in this proposed rule change were announced by Nasdaq on November 30, 2006,⁶ as part of a market-wide evolution in the pricing structure for non-Nasdaq listed securities and an effort by Nasdaq to adopt consist pricing for all types of securities. Previously, the fees charged by Nasdaq and other venues for non-Nasdaq securities had been characterized by low execution and routing fees and no credits for liquidity providers. During the Fall of 2006, however, other markets began to adopt higher execution fees, coupled with liquidity provider credits, thereby moving toward a structure that had long been in effect for Nasdaq-listed securities. As of January 2, 2007, NASD likewise filed fees for the ITS/CAES and Inet that reflected this evolving pricing

structure. However, the fees filed for January were intended as a one-month transition away from the previous structure, and therefore included lower thresholds to qualify for favorable pricing. In addition, the new higher thresholds adopted by this proposed rule change reflect the growing volumes of orders for NYSE-listed securities that are executed or routed through Inet and ITS/CAES, and are intended to encourage further usage.

NASD has filed the proposed rule change for immediate effectiveness. The operative date of the proposed rule change will be February 1, 2007.

2. Statutory Basis

NASD believes that the proposed rule change is consistent with the provisions of Section 15A of the Act,⁷ in general, and with Section 15A(b)(5) of the Act,⁸ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the NASD operates or controls. NASD believes that the fees are reasonably allocated among members based on their usage of the trading systems operated by Nasdaq, and are generally consistent with fees charged by other market centers for comparable services.

NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.
