Individual Forms – DRP Mapping Guide

With Web CRD & IARD Release 2009.2, DRPs on the Individual forms were modified. The purpose of this document is to provide a summary of the fields that will be mapped from the old DRP version to the new 2009 DRP version. Fields from previously submitted DRPs will be mapped and populated by the system when the existing DRP is edited in the 05/2009 DRP version as part of a form filing.

The table below displays all of the 2005 DRP fields along with the corresponding 2009 DRP field, if applicable. Note, data was only mapped from previous versions if the format of the data was exactly the same (e.g. data in text boxes was mapped to text boxes. However, data that was previously submitted in a text box was not mapped to discrete fields (i.e. such as radio buttons and drop down lists) in the 2009 version.
