CRD Transformation is a multi-year project that will reimagine the CRD system into a modernized platform that features a simpler and more streamlined experience for all users, providing firms with a more flexible and efficient way to get their compliance work done.

Initially, the new version of CRD will be available alongside the existing CRD system (which will be referred to as classic CRD) and new features will be deployed incrementally. For a list of new and upcoming features, please visit the Be in the Know page on FINRA’s website.

- Additional Features (pg. 11)
- Helpful Hints (pg. 11)
Accessing New CRD

The URL for new CRD is [https://mycrd.finra.org](https://mycrd.finra.org), which can be accessed using your existing CRD/IARD User ID and Password.

**NOTE:** Access to new CRD requires entitlement to the MyCRD family of privileges. The firm’s Super Account Administrator (SAA) is able to grant entitlement using the existing CRD/IARD Account Management feature. For details on each MyCRD privilege, please see the “System Access” tab on the Be in the Know page on FINRA’s website.

Entitled users can also access new CRD through links embedded in classic CRD.

Activities List

The Activities List is intended to be the eventual replacement for the existing CRD queues, and provides firms with a consolidated list of tasks that is designed to streamline workflow. Three categories of activities are available:

- Individual
- Branch
- Firm

Users can select the multi-colored tabs at the top of the page to switch between the different categories of activities. The column headers also allow for sorting activities in ascending or descending order.

An export feature allows users to obtain a CSV download of current activities.

When a specific activity is selected using “Details”, the user will be taken to the individuals’ record in either new CRD or classic CRD to complete tasks related to that activity or to view the impacted record. The individuals name can also be selected to access the individual’s record.

**NOTE:** Users are required to have the necessary classic CRD entitlement to access the additional information and complete any related tasks.
Using Filters
By default, all current activities for the firm display when a user logs into new CRD. The Filter feature allows users to customize the activities that appear within their view at any one time.

**NOTE:** Filters can be very useful for registration staff at firms that have a large number of activities, or for users that have a specialized role.

Users are able to filter by the type of activity, as well as the status and/or due dates. Click the “Apply” button to return to the Activities List using the customized view.
Using Filters (continued)
Once applied, filters can be saved for later use in an individual user’s Saved Filters menu.

**NOTE:** Currently, filters cannot be shared between users. Each user must create their own filters.

Users can create and save multiple filters. The list of saved filters allows the user to quickly switch between different customized activity views.
Quick Links

The Quick Links feature allows users to personalize their homepage, providing them with easy access to the system functions they may use frequently. Click on the “Manage” link to select which functions will appear in the list.

NOTE: Quick Links will take the user to the applicable function in classic CRD. Users are required to have the necessary classic CRD entitlement to access each function.
My Reports

Users are also able to setup personalized access to their favorite reports. Click on the “Manage” link to select which reports will appear in the My Reports list.

**NOTE:** Selecting a report will take the user to the Request Report screen in classic CRD. Users are required to have the existing reports entitlement in classic CRD in order to request the selected reports.
Individual

Individual information contains the details about registered and non-registered individuals that are currently or previously associated with your firm.

There are two ways to access individual information:

- Search box at the top of the page
- Individual icon on the navigation bar, on the left side of the screen

NOTES:
- Users with entitlement to Activities can also access an individual’s record by clicking on the appropriate name that is displayed in the Activities List.
- There are Quick Links available to access classic CRD to conduct Individual and Pre-Registration searches.

Once on the Individual Search screen, enter the appropriate CRD number, SSN or Name information. This screen also has a link to perform a Pre-Registration Search in classic CRD.

Select the appropriate person on the search results screen to be taken to the individual’s profile page.
Navigate through the individual’s information using the links, tiles and arrows.

NOTE: To see the individual’s full record, use classic CRD. Full individual information will be available in new CRD at a later date.
Dynamic Reporting

This feature allows users to create, save, and download custom reports with CRD data. Users have the ability to filter and group the data, as well as choose which fields to include.

![Dynamic Reporting](image)

Ready-to-use templates are also available. The templates can be edited and saved as custom reports.

**NOTE:** For more information about this feature, please visit the **Dynamic Reporting** page on the FINRA website.
Additional Features

Clicking the User icon will display links to “Change Password”, “Manage Accounts” (if applicable) and “Sign Out”.

Clicking the “?” icon will display “Help” and “Give Feedback” links. Users are able to provide feedback by completing an online survey about their experience with the new system.

Helpful Hints

• Firms are not restricted to only using the new version of CRD. Classic CRD and Firm Gateway are also available using the existing links:
  • Classic CRD—https://crd.finra.org
  • Firm Gateway—https://firms.finra.org

• Each activity category was initialized on a specific date (shown below). Activities will display beginning with these dates and going forward.
  • All Individual Activities—March 22, 2018
  • Branch Deficiency Activities—May 19, 2018
  • Firm Registration Activities—May 19, 2018
