All investors need to be held accountable for their actions. Naked Shorting is illegal. We the people do not want the government to only fine them but we would like to see them tried for their crimes and adjudicated properly. If the government only fines these people and let's them off with a slap on the hand then the government itself is the problem and is indeed taking it's cut. FINRA, SEC, and other governing bodies... do not be an accomplice to illegal activity. Please step up and do your job to protect retail investors.

Lastly please look at inflow and outflow price manipulation on AMC Ent Holdings.
