We the private investors are being killed by

Short selling companies till they can't get any more money to survive

Dark Pools are hiding shorts and Synthetic shares this needs to stop

We see AMC that has 20% more buying volume then selling volume and the stock declines 9%

Shorts are ruining the stock market with endless selling

Shorts pay fines of about 15% of the profits they make Not like the IRS
You pay everything you made plus 50%

Corruption on Wall Street by hedge funds is outlandish

Please put controls into place

If they are naked short they have 3 days to find the shares or a forced purchase

Abolish Dark Pools

Report shorting every day

Please clean up the rules to stop the crooks
