As a first time investor in the US market, I have purchased AMC stock and I am appalled at the corruption of the US market. this needs to stop I am tired of waiting month after month as the government agency that is suppose to protect the individual investors. The fair market is so corrupt and I demand as a citizen and as a new investor that this corruption, manipulation and fraud stop immediately. Citadel and Ken Griffin should be indicted and all the orders in the dark pool be brought back into the lite market, where AMC stock should be approximately \$500,000 a share. we have lost all confidence in the government and in the investment institution in the US market.

thank you,

Lourdes R Lugo
