To Whom it May Concern:

I would like to know why this level of market manipulation by market makers is possible. This ability of dark pool trading, naked shorting (you already know), synthetic shares, PFOF, etc... The US govt, SEC, FINRA all should immediately investigate what's been happening to AMC & GME. How can a stock continuously have a higher buy/sell ratio but price goes down? Dark pools? Is that there purpose of dark pools to screw hard working Americans out of there money? 98% of people have no idea this level of deception by hedge funds are market makers. Please step in and stop this. Everybody needs something fair in their lives. America needs to get better! Help people who are trying to further their financial gain! Their being robbed and everybody knows it now! Do the right thing for once.

Sincerely,
An American who wants truth and fairness for all
