There isnt any transparency in the market.

\* dark pools need to be illiminated

\*SSR needs to be enforced strictly

\*FTD's need to be enforced immediately

\*hedge funds HAVE to be forced to cover.

\*synthetic, naked shorts

The curtain has been pulled back and we all see what's going on with manipulation and illegal trading, we can not ignore what we now see.

Our trust in the SEC and NYSE has been depleted, because they are looking the other way when it's right under their noses.

Thanks for hearing our complaints at least to see people start to acknowledge what we clearly see is a wonderful first step

Scarlett lovell
