Transparency and fairness for all investors is all anyone wants. What has been happening over the last 6 months in certain stocks is unbelievable. Hedge funds need/must be held responsible for their actions when it come to FTD's naked shorting, etc. just the same as retail traders must follow the rules set forth by the governing body. Please this is huge for the US trading markets and will have a huge impact on the future of our great country if something isn't done soon.

Sincerely,
Zachary Walker
