Subject: Rule 2111 Comment

I have several concerns about the proposed changes and firmly oppose any expansion of Rule 2111 to include "non-securities, services and strategies". I already firmly support all suitability requirements for the products I offer and then some. Creating overlaps in jurisdiction and added burdens on the brokerage industry could be extremely harmful to my business and to consumers.

Additional burdens on smaller independent advisors will be harmful and more costly for the public, leading them only to deal with the largest firms which have been the biggest contributors to our current financial problems.
