Subject:	Regulatory notice 09-25 Opposed

I have been in the life insurance and annuity business for 32 years with the same company. I am licensed series six also for the past twelve or so years. I agree with federal regulation of securities, but not fixed annuity products. I think that it should be on a state basis handled by the department of insurance through a suitabilty requirement statement. I don't see any reason to expand FINRA.

For this reason I do not support 09-05.

Thank you,

Glen T. Castle CLU, ChFC, LUTCF
