To Whom it May Concern,

It is getting to point where we are having a hard time complying with every possible rule from every possible government entity while our commissions fall. We will soon be at a point where we will no longer be giving any advice on any subject. That will soon be the purview of government bureaucrats. Like getting advice from the post office. I suggest rather than more regulations, you enforce the one's you have and make an example of the people who violate the law.
