ISG Regulatory Memorandum, ISG 2007-01

On March 6, 2007, the Securities and Exchange Commission (SEC) approved rule changes by the Amex, NASD and NYSE to require members and member organizations to increase the frequency of short interest reporting from monthly to twice a month.² The amended short interest reporting requirements become effective 180 days after SEC approval to give members and member organizations adequate time to make any changes necessary to comply with the new requirements. In addition to the rule changes at the Amex, NASD and NYSE, the other U.S. securities marketplace members of the ISG are also revising their short interest reporting requirements to correspond to the twice-a-month reporting cycle. Therefore, beginning in September 2007, all ISG SROs will require members and member organizations to submit short interest information twice a month.

The Mid-Month Short Interest Report will continue to be based on short positions³ held by members on the settlement date of the 15th of each month. If the 15th falls on a weekend or another non-settlement date, the designated settlement date will be the previous business day on which transactions settled. The End-of-Month Short Interest Report will be based on short positions held on the last business day of the month on which transactions settle.

All members and member organizations of the ISG SROs will continue to be required to report short positions in all securities they carry, irrespective of where the securities are listed. It is not expected that the current reporting processes or reporting systems offered by the ISG SROs will change other than having to report twice a month.⁴

- 2 Currently, the Amex requires members to report End-of-Month Short Interest for "ETF type products."
- 3 Short positions to be reported are those resulting from short sales as the term is defined in SEC Rule 200 of Regulation SHO, subject to certain limited exceptions.

Short Interest Reporting Rules

Amex Rule:

30A Periodic Reports — Short Positions

Every member organization shall submit, as required by the Exchange, periodic reports with respect to short positions in securities.

Commentary

.01 Short positions.—Member organizations are required to report “short” positions, including odd lots, in each Amex-listed stock, warrant or other security treated as an equity, and in each other stock, warrant or other security treated as an equity not listed on the Exchange (and not otherwise reported to another self-regulatory organization), using such format and method as prescribed by the Exchange. Such reports must include customer and proprietary positions and must be made at such times and cover such time periods as may be designated by the Exchange.

For the purposes of this report, the term “customer” means any account other than the proprietary account of the reporting member organization.

“Short” positions to be reported are those resulting from “short sales” as that term is defined in Rule 200 of SEC Regulation SHO, but excluding positions resulting from sales specified in Securities Exchange Act Rule 10a-1(e) (1), (6), (7), (8) or (10). Also to be excluded are “short” positions carried for other members and member organizations reporting for themselves.

Only one report should be made for each stock, warrant or other security treated as an equity in which there is a short position. If more than one “account” has a short position in the same stock, warrant or other security treated as an equity, the combined aggregate should be reported.

NOTE: A member organization which does not carry customers’ margin accounts and does not clear its own transactions may obtain an exemption from reporting by notifying the Exchange in writing.

Adopted. March 6, 2007 (Amex-2007-05).

CBOE Rule:

15.1. Maintenance, Retention and Furnishing of Books, Records and Other Information

Each member shall make, keep current and preserve such books and records as the Exchange may prescribe and as may be prescribed by the Securities Exchange Act of 1934 and the Rules and Regulations thereunder as though such member were a broker or dealer registered pursuant to Section 15 of such Act. No member shall refuse to make available to the Exchange such books, records or other information as may be called for under the Rules or as may be requested in connection with an investigation by the Exchange.

Interpretations and Policies:

.01 The following Rules contain specific requirements with regard to the maintenance and retention of books, records and other information: Rules 3.4, 3.6, 8.9, 9.6, 9.7, 9.8, 9.10, 9.21, 9.23, 11.2, 12.12 and Chapter XV. In addition, the following Rules contain specific requirements with regard to the furnishing of information to the Exchange: Rules 3.7, 3.9, 3.17, 3.18, 3.20, 3.21, 3.23, 3.25, 4.9, 4.13, 6.49, 6.51, 6.56, 6.59, 6.71, 6.72, 7.2, 7.3, 7.6, 8.2, 8.3, 8.5, 8.10, 8.11, 9.1, 9.2, 9.3, 12.11, 13.4, 14.2 and 19.2. The foregoing list is not intended to be exhaustive and members must comply with all applicable recordkeeping and reporting requirements whether or not listed above.

Issued August 23, 1978; amended March 26, 1980; July 19, 2000, effective August 18, 2000 (99-15).

.02 Each member organization that clears stock transactions and for which the Exchange is the Designated Examining Authority shall maintain records of short stock positions in all customer and proprietary firm accounts for securities listed on a United States registered national securities exchange or for securities whose bids and offers are reported on the automated quotation system operated by the National Association of Securities Dealers, Inc. ("NASD"). Each such member that is not required to report short interest data to another stock exchange or to the NASD as a result of being a member of such organization shall report these short stock positions to either a stock exchange or to the NASD, as the Exchange so directs. The form, manner, and time of such report shall be specified by the appropriate exchange or the NASD.

Approved January 27, 1995 (94-55).

.03 In addition to the existing obligations under Exchange rules regarding the production of books and records, a Market-Maker in non-U.S. currency, non-U.S. currency options, futures or options on futures on such currency, or any other derivatives based on such currency, shall make available to the Exchange such books, records or other information pertaining to transactions in non-U.S. currency and the applicable non-U.S. currency, non-U.S. currency options, futures or options on futures on such currency, or any other derivatives on such currency, as may be requested by the Exchange.

Amended November 2, 2006 (06-74).

.04 In addition to the existing obligation under Exchange rules regarding the production of books and records, a Market-Maker in options on Commodity Pool Units, shall make available to the Exchange such books, records or other information pertaining to transactions in the applicable physical commodity, physical commodity options, commodity futures contracts, options on commodity futures contracts, or any other derivatives on such commodity, as may be requested by the Exchange.

Amended April 13, 2007 (07-21).

Supplementary Material:

.10Short positions.—Member organizations for which the Exchange is the designated examining authority are required to report "short" positions, including odd lots, in each stock or warrant listed on the Exchange, and in each other stock or warrant not listed on the Exchange which is not otherwise reported to another United States securities exchange or securities association, using such automated format and methods as prescribed by the Exchange. Such reports must include customer and proprietary positions and must be made at such times and covering such time period as may be designated by the Exchange.

Member organizations for which the Exchange is not the designated examining authority must report "short" positions to the self-regulatory organization which is its designated examining authority ("DEA") if such DEA has a requirement for such reports. If the DEA does not have such a reporting requirement, then such member organization must comply with the provisions of Rule 421.

The term "designated examining authority" means the self-regulatory organization which has been assigned responsibility for examining a member organization for compliance with applicable financial responsibility rules. (See Rule 17d-1 under the Securities Exchange Act of 1934 (the "Exchange Act").)

"Short" positions to be reported are those resulting from "short" sales as defined in Rule 200 of the Securities and Exchange Commission's Regulation SHO, but excluding positions resulting from sales specified in clauses (1), (6), (7), (8), and (10) of paragraph (e) of Rule 10a-1 under the Exchange Act. Also to be excluded are "short" positions carried for other member organizations reporting for themselves.

Only one report should be made for each stock or warrant in which there is a short position. If more than one "account" has a short position in the same stock or warrant, the combined aggregate should be reported.

NOTE: A member organization which does not carry customers' margin accounts and does not clear its own transactions may obtain an exemption from reporting by notifying the Exchange in writing.

Amended March 30, 1993.

Amended March 6, 2007 (NYSE-2006-111).
