Background & Discussion

FINRA’s primary member regulatory pricing structure consists of the following fees: the Personnel Assessment (PA), Gross Income Assessment (GIA) and Trading Activity Fee (TAF). These fees are used to fund FINRA’s regulatory activities, including examinations; financial monitoring; and FINRA’s policymaking, rulemaking and enforcement activities.

Because the proceeds from these fees are used to fund FINRA’s regulatory mandate, Section 1 of Schedule A to FINRA’s By-Laws notes that “FINRA shall periodically review these revenues in conjunction with these costs to determine the applicable rate.” Although FINRA recently restructured both the GIA and the PA, the current TAF rate for covered equity securities of $0.000075 per share has been in place for over six years. As a result of the recent decrease in trading volumes in the equity markets, an increase in the TAF rate is now necessary to ensure that FINRA can continue to maintain a robust regulatory program and meet its regulatory obligations effectively, while attempting to remain revenue neutral.
Accordingly, to stabilize revenue flows necessary to support FINRA’s regulatory mission, the SEC approved an increase to the TAF rate for sales of covered equity securities. Effective July 1, 2011, the TAF rate for sales of covered equity securities will increase from $0.000075 per share to $0.000090 per share, with a corresponding increase to the per-transaction cap for covered equity securities from $3.75 to $4.50. The new rate will apply to any sale of a covered equity security subject to the TAF occurring on or after July 1, 2011. The TAF Self-Reporting Form available on FINRA’s website will reflect this new rate beginning with TAF Self-Reporting Forms due on August 12, 2011, which reflect trades subject to the TAF occurring in July 2011.
