DEVELOPMENT AND MAINTENANCE OF THE CONTENT OUTLINE AND EXAM
The Series 27 content outline was developed based on the results of a job analysis study of Financial and Operations Principals. The job analysis process included collecting data about the job functions, tasks and required knowledge of Financial and Operations Principals from a wide variety of firms using numerous data collection techniques.

Under the guidance of FINRA staff, a committee of industry representatives (Committee) writes, reviews and validates all exam items to ensure and sustain the job relevance of the exam. Exam items are subject to multiple reviews prior to inclusion on the exam, and each item links directly to a component of the content outline. Items vary in difficulty and complexity. Each item has only one correct or best answer.

The bank of items changes frequently as a result of amendments to, or the introduction of, government and self-regulatory organization (SRO) rules and regulations, changes in industry practice, and the introduction of new products. Exam items and their statistical performance are analyzed routinely by FINRA staff and the Committee to ensure relevance to the functions of Financial and Operations Principals. **Candidates are responsible for keeping abreast of changes made to the applicable rules and regulations as the exam is updated when new rules are introduced and when the rules are amended.**

ADMINISTRATION OF THE EXAM
The exam is administered via computer. A tutorial on how to take the exam via computer is provided prior to the exam. Each candidate’s exam includes 10 additional, unidentified pretest items that do not contribute toward the candidate's score. The 10 items are randomly distributed throughout the exam. Therefore, each candidate’s exam consists of a total of 155 items (145 scored and 10 unscored). There is no penalty for
guessing. Therefore, candidates should attempt to answer all items. Candidates will be allowed 3 hours and 45 minutes to complete the exam.

The test administrator will provide white boards/dry erase markers and basic electronic calculators to candidates, who must return these materials to the test center administrator at the end of the testing session. Some exam items may involve calculations. Only calculators provided by the test center administrators are allowed for use during the exam.

Candidates are not permitted to bring any reference material to their testing session. Severe penalties are imposed on candidates who cheat or attempt to cheat on FINRA-administered exams.

**HOW THE EXAM IS SCORED**
The passing score for the exam is the minimum number of items that a candidate has to answer correctly in order to pass the exam. Using a standard-setting procedure, FINRA staff, in consultation with the Committee, establishes the passing score for the exam. The passing score is an absolute standard and is independent of the performance of candidates taking the exam. The passing score for this exam is 69%.
