Securities Trader Qualification Examination (Series 57)
PURPOSE OF THE EXAM
The Series 57 exam is designed to assess the competency of entry-level Securities Traders. The Series 57 exam seeks to measure the degree to which each candidate possesses the knowledge, skills and abilities needed to perform the critical functions of a Securities Trader. In order to obtain registration as a Securities Trader, candidates must pass both the Series 57 exam and a general knowledge co-requisite, the Securities Industry Essentials (SIE) exam. For more information about the activities requiring registration as a Securities Trader, see FINRA Rule 1220(b)(4).

STRUCTURE OF THE EXAM
The exam consists of 50 multiple-choice items, and each item consists of four answer choices. The allocation of exam items for each major function is as follows:

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
<th>Percentage of Exam Items</th>
<th>Number of Items</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Trading Activities</td>
<td>82%</td>
<td>41</td>
</tr>
<tr>
<td>2</td>
<td>Maintaining Books and Records, Trade Reporting and Clearance and Settlement</td>
<td>18%</td>
<td>9</td>
</tr>
<tr>
<td><strong>TOTAL:</strong></td>
<td></td>
<td><strong>100%</strong></td>
<td><strong>50</strong></td>
</tr>
</tbody>
</table>

ADMINISTRATION OF THE EXAM
The exam is administered via computer. A tutorial on how to take the exam is provided prior to taking the exam. Each candidate’s exam includes 5 additional, unidentified pretest items that do not contribute toward the candidate's score. The pretest items are randomly distributed throughout the exam. Therefore, each candidate’s exam consists of a total of 55 items (50 scored and 5 unscored). There is no penalty for guessing. Therefore, candidates should attempt to answer all items. Candidates will be allowed 1 hour and 45 minutes to complete the Series 57 exam.

All candidate test scores are placed on a common scale using a statistical adjustment process known as equating. Equating scores to a common scale accounts for the slight variations in difficulty that may exist among the different sets of exam items that candidates receive. This allows for a fair comparison of scores and ensures that every candidate is held to the same passing standard regardless of which set of exam items they received.

Candidates are not permitted to bring reference materials to their testing session. Severe penalties are imposed on candidates who cheat or attempt to cheat on FINRA-administered exams.
