Guidance on Rules Governing Communications With the Public

Background and Discussion
In April 2014, FINRA launched a retrospective review of its communications with the public rules to assess their effectiveness and efficiency. In December 2014, FINRA published a report on the assessment phase of the review. The report concluded that, while the rules have met their intended investor protection objectives, they could benefit from some updating to better align the investor protection benefits and the economic impacts. To this end, FINRA staff recommended a combination of rule proposals, guidance and administrative measures.

Pursuant to these recommendations, FINRA has published additional questions and answers on the Advertising Regulation page on the FINRA website. These questions and answers supplement previously published guidance.
