II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB’s approval for the information collection summarized below.

5. How often is the collection required or requested: One-time.

6. Who will be required or asked to respond: All nuclear power reactors with a license issued under Title 10 of the Code of Federal Regulations (10 CFR) Part 50, “Domestic Licensing of Production and Utilization Facilities,” except those that have permanently ceased operations with all reactor fuel removed from on-site spent fuel pool storage; all holders of an operating license for a non-power reactor (research reactor, test reactor, or critical assembly) under 10 CFR part 50 who have a reactorpool, fuel storage pool, or other wet locations designed for the purpose of fuel storage, except those who have permanently ceased operations with all reactor fuel removed from on-site wet storage.

Abstract: Neutron-absorbing materials installed in the spent fuel pool that are credited for maintaining subcriticality must be able to perform their neutron-absorbing safety function during both normal operating conditions and design basis events. Monitoring of neutron-absorbing materials is intended to identify when degradation may affect the ability to perform the neutron-absorbing safety function, so that appropriate corrective action can be taken. The NRC is requesting information to determine if (1) addressers have adequate neutron-absorbing material monitoring programs in place to ensure compliance with the regulations, and (2) the agency should take additional regulatory action. The NRC is required by the Atomic Energy Act to verify that licensees are in compliance with the regulations and license conditions. Compliance with the regulations provides reasonable assurance of public health and safety. The NRC has authority to collect this type of information pursuant to Title 10 of the Code of Federal (10 CFR) 50.54(f).

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Extend the Implementation of FINRA Rule 4240 (Margin Requirements for Credit Default Swaps)

May 29, 2015.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) 1 and Rule 19b–4 thereunder, notice is hereby given that on May 20, 2015, Financial Industry Regulatory Authority, Inc. (“FINRA”) filed with the Securities and Exchange Commission ("SEC") 2 a proposed rule change to extend the implementation of FINRA Rule 4240 (Margin Requirements for Credit Default Swaps).

1. Purpose

Change in the Approval Order, FINRA Rule 4240, coterminous with certain Commission actions, was intended to address concerns arising from systemic risk posed by CDS, including, among other things, risks to the financial system arising from the lack of a central clearing counterparty to clear and settle CDS. On July 21, 2010, President Obama signed into law the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”). Title VII of which established a comprehensive new regulatory framework for swaps and security-based swaps, including certain CDS. The new legislation was intended, among other things, to enhance the authority of regulators to implement new rules designed to reduce risk, increase transparency, and promote market integrity with respect to such products.

FINRA does not believe that the provision of the proposed rule change is consistent with the provisions of section 15A(b)(6) of the Act, which requires, among other things, that FINRA rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. FINRA believes that the proposed rule change is consistent with the Act because, in light of the continuing development of the CDS business within the framework of the Dodd-Frank Act and pending the final implementation of new CFTC and SEC rules pursuant to Title VII of that legislation, extending the implementation of the margin requirements as set forth by FINRA Rule 4240 will help to stabilize the financial markets.

B. Self-Regulatory Organization’s Statement on Burden on Competition

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. FINRA believes that extending the implementation of FINRA Rule 4240 for a limited period, to July 18, 2016, in light of the continuing development of
the CDS business within the framework of the Dodd-Frank Act and pending the final implementation of new CFTC and SEC rules pursuant to Title VII of that legislation, helps to promote stability in the financial markets and regulatory certainty for members.

G. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to section 19(b)(3)(A) of the Act \(^{13}\) and Rule 19b–4(f)(6) thereunder.\(^{14}\)

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

- Use the Commission’s Internet comment form ([http://www.sec.gov/rules/sro.shtml](http://www.sec.gov/rules/sro.shtml)); or

The Commission will post all comments on the Commission’s Internet Web site ([http://www.sec.gov/rules/sro.shtml](http://www.sec.gov/rules/sro.shtml)). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission’s Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of such filing also will be available for inspection and copying at the principal office of FINRA.
