Organization Queues provide the mechanism for the CRD system to notify firms about current firm and branch deficiencies, registration withdrawal or termination, and firms retiring from their simultaneous filing group.

**IMPORTANT NOTE:**

All classic CRD features should now be accessed through [FINRA Gateway](https://www.finra.org), the new FINRA reporting and compliance platform. This new system is designed to focus on compliance functions, such as research, reporting and responding to requests, rather than focusing on the specific system you would access to fulfill your requirements.

If you have any questions or feedback regarding the transition to FINRA Gateway, please contact FeedbackFINRAGateway@finra.org.
